Family Houston Receives Bank of America Grant to Support Case Management Program

HOUSTON (July 6, 2021) – According to a September 2020 report, 63% of Houston households face serious financial problems because of the COVID-19 crisis. Bank of America has awarded \$40,000 to Family Houston to support its Case Management services to help alleviate this increased need for financial resources and education.

“These funds will support Family Houston’s Case Management program in helping low-income families maximize their resources so they can afford quality health care, nutritious foods, and safe housing,” said Family Houston’s Chief Program Officer Tracey Burnett-Greenup.

Locally, Bank of America has announced its support of 28 Houston-area nonprofits, helping to further their efforts to deliver essential and basic services to the most vulnerable, including education, essential healthcare, workforce and leadership development, homelessness prevention, and food insecurity.

“Family Houston is an essential part of the solution to the struggles our clients face. We are grateful to Bank of America for their continued support of Family Houston’s Case Management program, and we look forward to continue making positive change in this community together,” Burnett-Greenup said.

“Our nonprofit partners, like Family Houston, are accomplishing incredible things in our community as they work tirelessly to serve the most vulnerable across Houston and respond to the most pressing challenges facing our populations. We all have a role to play in helping move communities forward, and by supporting local nonprofits as they deploy resources and build programs to address urgent needs, our Bank of America team remains committed to the people and communities we serve,” said Hong Ogle, President, Bank of America Houston.

For more information on the services Family Houston offers the community call 713-861-4849 or email family@familyhouston.org.

About Family Houston

Family Houston is a nonprofit social services organization serving greater Houston since 1904. Family Houston provides people of all ages, regardless of ability to pay, with tools to achieve their goals through counseling and mental health services, financial stability and employment coaching, and personalized case management.
